

The Eclipse "Megamovie" Project

R. T. JAMES MCATEER

Dr. McAteer is the PI of the Solar Physics and Space Weather research group at New Mexico State University. Prior to this he held fellowships at Trinity College Dublin, NASA Goddard Space Flight Center and Queen's University Belfast. He is a Co-Investigator on the Solar Orbiter mission, the Solar Dynamics Observatory, the Solar Terrestrial Relations Observatory (STEREO), and the ROSA instrument based at the National Solar Observatory in Sunspot (NM).

ASSISTANT PROFESSOR:

Solar Physicist,

PI: Solar physics and Space Weather

New Mexico State University

RESEARCH:

Solar Plasmas, Solar Activity,

Space Weather, Sun-Earth Connection, Image Processing

PROFESSIONAL MEMBERSHIP

Team Member of SDO, STEREO, & SoHO

International Astronomical Union

Royal Astronomical Society & UKSP

American Astronomical Society & SPD

American Geophysical Union & SHD

Max Millennium Chief Observer

Institute of Physics

Users Committee, National Solar Observatory

Reviewer - NASA, NSF, Nature, ApJ, AA, Solar Physics
